

Vibranium Consulting

Introduction Deck 2026

Overview

About Us

- Vibranium is a Singapore-headquartered boutique tech and corporate finance advisory company. We focus primarily on cross-border projects in various industries, with a greater focus on the technology space.
- Established in 2018 by a team passionate about the impact technology has on society and human development, we have worked with over 300 clients globally for the past 7 years.

Specialized Expertise in TMT

- We have established relationships and worked extensively with leading technology companies, acquirers, investors, and business partners across SEA, East Asia, South Asia, and the USA.
- Our sell-side clients consist mostly of SEA companies whilst our buy-side clients are listed corporations, private companies, and private equity firms across SEA, South Asia, East Asia, and the USA.

Industries We Cover

Technology, Media & Telecom

Manufacturing

Logistics & Shipping

Financial Services

Engineering & Construction

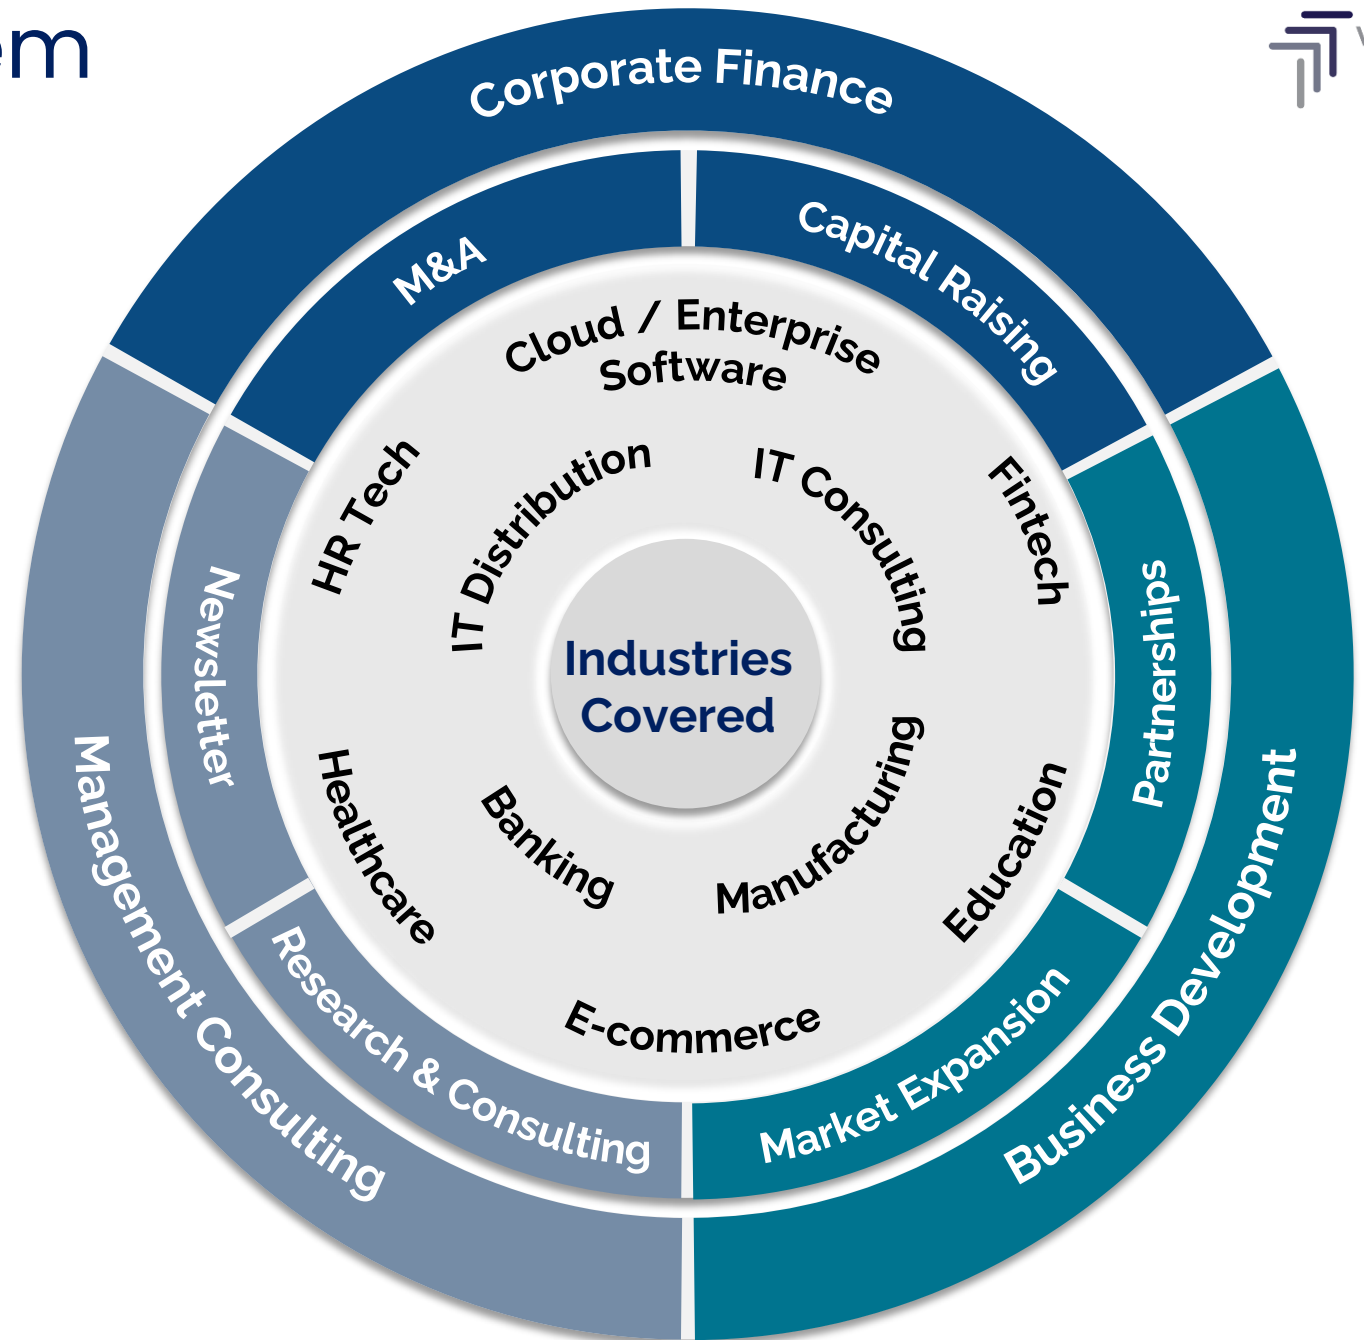

A Synergistic Ecosystem of Services

Our Unique Value Proposition

Vibranium's integrated services in management consulting, corporate finance, and business development form a synergistic triad.

Our extensive research and consulting knowledge fuels our deal-making, partnership facilitation, and market expansions. In turn, the experience from deals and business development enriches our consulting capabilities, born from our active, hands-on involvement in the market.

At the core of our business is a profound expertise within the tech sector and this is consistently embodied in the work we do.

Our Services Are Backed by a Global Network of Strategic Buyer Relationships

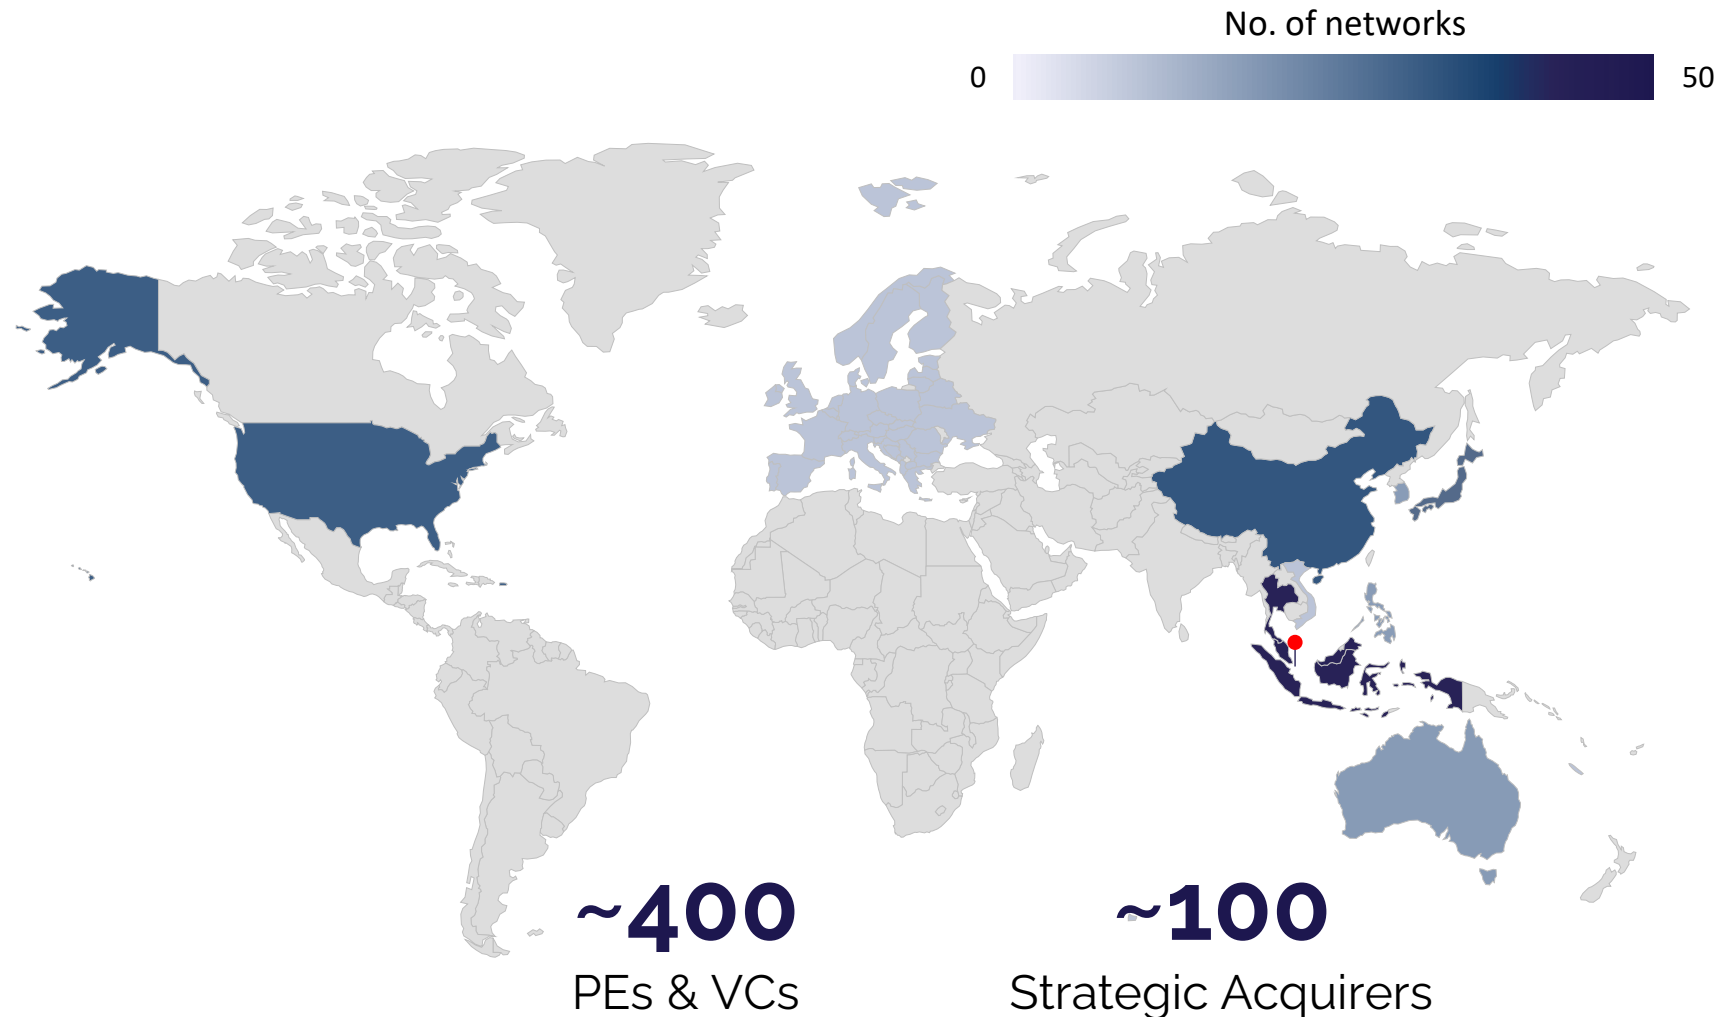

“

GLOBAL REACH, LOCAL EXPERTISE

We have **established long-term, trusted relationships** with publicly listed acquirers in the IT services and solutions sectors, as well as with PEs worldwide.

”

Corporate Finance Services

Mergers & Acquisitions

- Offer specialist sell-side and buy-side advisory services, in the B2B tech sector.
- Provide innovative advice on valuation, transaction structures and deal negotiations.
- Expertise lies in cross-border transactions, through adept bridging of cultural gaps across geographies.
- Meticulous and agile deal execution.

Capital Raising

- Connecting our clients with the right strategic and financial investors best suited to reach their goals.
- Leveraging our diverse and global network to negotiate the best pricing on raises.
- Managing the administration, compliance, and recordkeeping throughout the whole process.

Post-acquisition Management

- Maintenance of existing business operations throughout the process of integration.
- Maximize and accelerate synergies and value creation to enhance the company's competitive capabilities.
- Building and aligning the cultures to drive the new company forward.
